Critical Information

To You

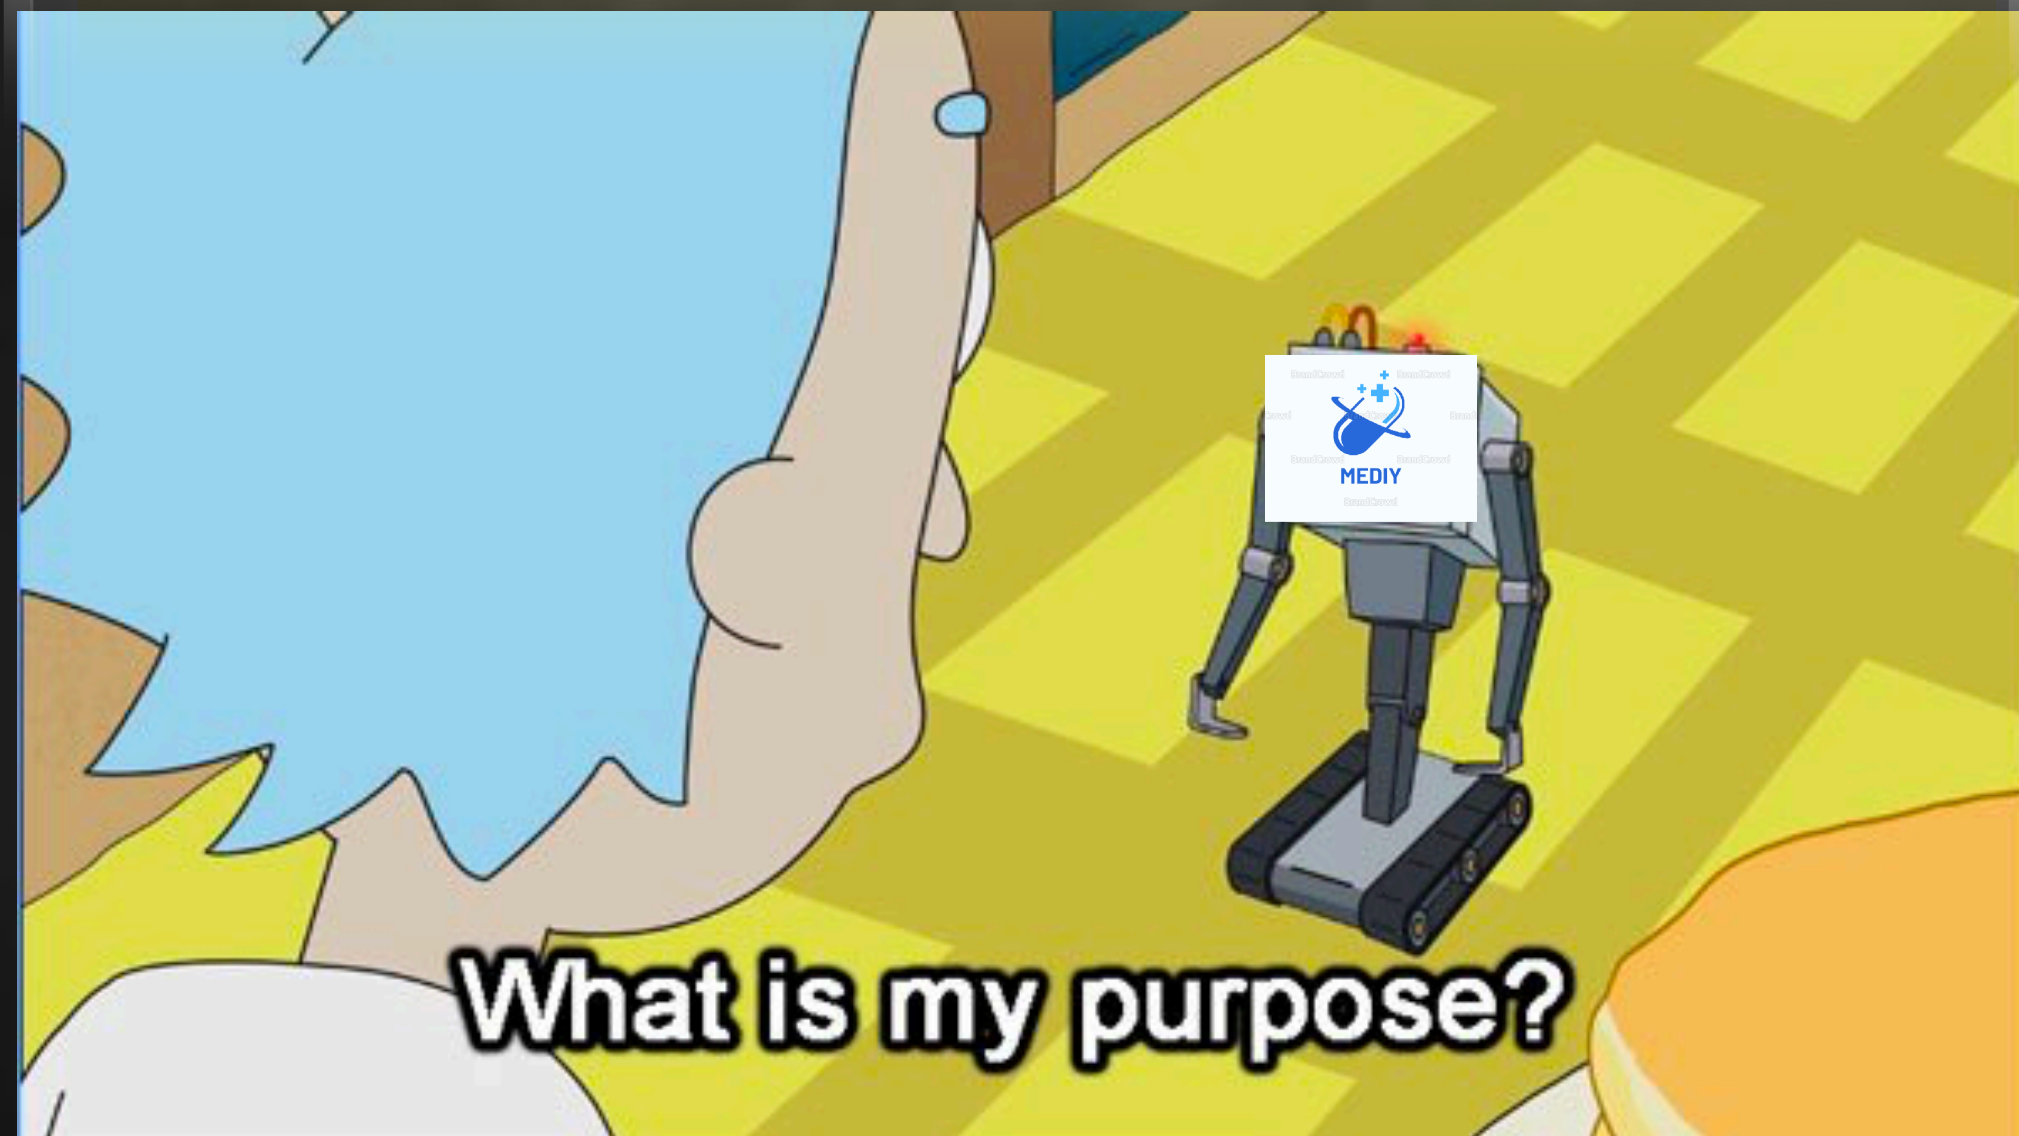

What Are These Problems?

- People who don't have a lot of time 
- People who need an easy way to determine how sick they are 
- People with social anxiety that need to visit a doctor 
- People who don't know how to treat their illness 
- People sometimes find out how serious their illness is too late

These Problems Are Just To Name A Few >

How Do I Solve These Problems?

That's Where the Purpose of my App Comes in

What Does The Mediy App Do?

- It provides an fast and easy way to determine what illness you contracted
- It gives you a great amount of information on how you should act once you are sick.
- It helps determine if you should visit a doctor or not
- It offers a fully autonomous UI allowing for no human interaction needed to use this app.

Future Add Ons I Want To Add

- A working Search Bar
- More questions to pin-point even further what illness you contracted.
- A map to obtain Doctor you could visit near you
- A larger data-base that can hold more information.
